# KNIGHTS OF COLUMBUS HISTORY

## HERE IS OUR STORY MONTH BY MONTH 1961 TO 1978

**Part #15 In A Series**

### 1961-1978: Into the Mainstream

The early 1960s marked a period of transformation and upheaval for the Church and society, as the Second Vatican Council convened and the civil rights movement emerged in full force. Both the universal call to holiness and the call for dialogue and justice in civic life found open ears in the Knights of Columbus. By embracing the challenge of authentic ecclesial and societal reform, while remaining faithful to timeless truths and traditional values, the Knights transcended the political divide.

At the 1966 Supreme Convention, Supreme Knight John W. McDevitt said it was time to see the Order as more than just “a fortress” for its members in a world hostile to the Catholic faith. In revising its admission policies and supporting a number of social justice initiatives, the Order took positive steps to eliminate racial discrimination within its ranks and in society at large. Recognizing the potential to share the Gospel through modern technology, the Knights also began a long history of support for the Church’s social communications initiatives, providing a shortwave transmitter for the Vatican radio station and funding the Vatican’s satellite “uplink” transmissions for worldwide broadcasts.

During this time, the Order’s insurance program also began a period of dramatic growth. The amount of insurance in force tripled from \$1 billion to \$3 billion from 1960 to 1975. And in 1969, the Knights built its seventh national headquarters, its current location, to better serve the Order’s members and their families.
